Education

Bootcamp Code For All (09-2023/12-2023)

Joined a Full-Stack Programming Bootcamp course where I became a Full-Stack Junior Developer, learning primarily Java & JavaScript.

HighSchool Professional Course (2020-2023)

Went through a highschool Informatics Management Professional course where I learned the basics of Front-End and Back-End, including advanced Microsoft Software usage (Excel, Powerpoint, Word, Access).

Experience

Interned as an IT Technician, managing stock, troubleshooting, educating students in programming, and providing client support. Gained valuable hands-on experience enhancing my technical skills that provided valuable insights into IT operations.

Hobbies and Interests

My list of hobbies are gaming, streaming, going to the movies and watching anime, etc. (of course I leave my home and meetup with friends)
